EDUCATION

Gateway Technical College   **Aug 2024 – May 2026**

Pursuing bachelor degree in Computer Science

- SC Johnson STEM Scholar: A program providing academic and professional development, starting at Gateway Technical College with a transfer pathway to partner universities like Carthage, MSOE, and Concordia.
- Relevant Coursework: Networking, Cybersecurity, IoT, and Quantitative Reasoning.

EXPERIENCE

Class Projects and Skills Development (2024–Present)

- Studied for Cisco CCNA Certification: Gained knowledge in networking fundamentals, routing, and switching protocols.
- Conducted basic network configuration, troubleshooting, and endpoint device security setups, addressing hardware and software issues.
- Conducted basic network configuration and troubleshooting exercises as part of a lab-based environment.
- Completed hands-on activities in sensor/actuator integration and understanding IoT concepts.
- Gained proficiency in deploying and maintaining operating systems, including Windows and basic Linux configurations.

PROJECT

Profolio | *React, Tailwind Css, Javascript*

- Developed a web application using React framework.
- Demonstrated strong problem-solving and debugging skills during deployment.
- Integrated modern UI/UX principles for an intuitive user experience.

CERTIFICATION

- CompTIA Security + (In Progress)
- Cisco CCNA (In progress)

TECHNICAL SKILLS

- Network Configuration (TCP/IP, DHCP, DNS)
- Operating Systems: Windows, Linux
- Endpoint Security and Malware Protection
- Hardware Troubleshooting (PCs, Laptops, Peripherals)
- Software Tools: MS Office, GitHub, Vite
